DUNE RESTORATION PLANTING

CONTRACT NO.:
10297-01

PROJECT DESCRIPTION

This \$224K FEMA project through the City's continuing CEI contract to re-establish dune vegetation along 9 miles of Jacksonville Beachfront that was damaged by Hurricane Irma. This project included planting sea oats and other specialized dune plants on a grid format, including establishing the vegetation. The project also required close coordination with turtle nesting activities as well as shorebird nesting activities daily.
