

## SHANDS BRIDGE

FIN NO.:  
422938-7-52-01

## PROJECT DESCRIPTION

This \$595M design-build project is the third and final segment of the SR 23 First Coast Expressway, replacing the Shands Bridge between St. Johns and Clay Counties, Florida. It includes design, permitting, construction, and improvements such as a 70 mph speed limit, 65-foot vertical clearance, two 12-foot-wide lanes in each direction, and a 12-foot, 8.5-inch shared path for pedestrians and cyclists. After completion, most of the existing bridge will be demolished, with parts remaining for recreational use, featuring barrier walls, parking, lighting, ADA access, and sidewalks. VIA is a subconsultant to HNTB.
