## Project Description

This project consists of 5,000 LF of a new 12" force main from Blanding Boulevard to Whispering Pines Drive. The project includes a combination of directional drill force main and open cut PVC force main, service connections and connection to an existing lift station on Whispering Pines Drive. Project requires extensive maintenance of traffic with flagging operations, pressure testing and flushing of the new lines, service connections, and coordination for outages for final main line connections. Project also includes the milling and resurfacing of one lane on Collins Road and the abandoning and grout filling of approximately 8,000 LF of existing 8" force main.
