# SR 13 (SAN JOSE BLVD.) 24" WATER MAIN REPLACEMENT

CONTRACT NO.: 184571

## PROJECT DESCRIPTION

This \$2.6M project for the installation of approximately 850 LF of 24" ductile iron pipe water main (DIP) and one 24" gate valve at each end on San Jose Blvd. from Claire Lane to Old River Rd. This project includes abandonment of the existing 24" high-density polyethylene pipe (HDPE) and associated work. The project is being conducted as an expedited emergency project to replace a leaking water main in the median of San Jose Blvd. within the respective limits. The project also includes utility construction and roadway restoration, and requires extensive MOT with flagging operations, lane closures, detours, and extensive coordination with residents/businesses throughout the project corridor.
