EMBEDDED DEVELOPMENT

CONTRACT NO.:
2021/2022-9

PROJECT DESCRIPTION

This Clay County Embedded project involves inspection services on multiple permitted subdivision development projects on behalf of Clay County Engineering. Projects consist of new roadways, drainage systems, utilities, lighting, curbing, sidewalks, signage, pavement markings, and other miscellaneous construction. As an Embedded Development Senior Inspector, Mr. Deloach works closely with the Clay County Engineering staff, provides all daily reports and project documentation, and ensures compliance with Clay County specifications.
